LAMILUX Continuous Rooflight S

Former Production Facility, Wurzen (Germany)

Essential info

City / Country:	Wurzen, Germany
Year:	2017
Object Type:	Event Venue
Solutions:	LAMILUX Continuous Rooflight S

Through the renovation of the ridged roofs, the former production facility, which is now used as an event hall, now shines again and is flooded with a lot of daylight. Since the visual appearance needed to be preserved, the client opted for our Continuous Rooflight S. A total of 21 units of these were installed in various sizes. Widths from 2.4m up to 3.9m were used. The length started at 4,5m and the longest Continuous Rooflight is 27,8m. In addition, LAMILUX Smoke Lift Systems were installed. These systems are triggered in the event of a fire but are also used for daily ventilation.
