

Pauluskirche, Traunreut (Germany)

Kurzinfo EN

City / Country: Traunreut, Germany

Year: 2017

Object Type: Church

Solutions: LAMILUX Glass Skylight FE

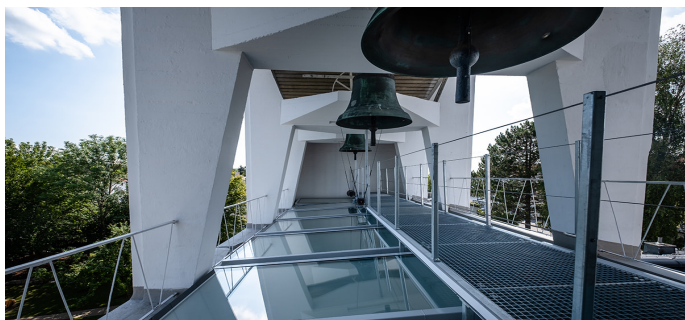

Above the altar of the protestant Pauluskirche in Traunreut eight skylights were renovated. The old light domes were so yellowed that almost no light came into the interior. The challenge was the existing special size of 119cm x 323cm. However, we could realize this without problems with our Glass Skylight FE. Now a generous amount of daylight enters the interior and the whole church now has a much more friendly appearance.
