LAMILUX CI SYSTEM ROOF EXIT HATCH COMFORT DOUBLE FLAP

Top floor apartment in the centre of Berlin

Essential Information

Place / country:	Berlin, Germany
Year:	2010
Building type:	Residential
Solutions:	Flat Roof Exit Comfort Duo Temperature and air quality measurement station Insulation glazing

Creation of a luxury living space with an exclusive ambience thanks to generous daylight intake and controllable ventilation and convenient access to the roof terrace.

- Compact, extremely energy-efficient overall structure, placed on a fibre-reinforced composite up stand with an integrated core insulation block
- Slidable glass elements driven by electric motors, low-noise glide on stainless steel telescopic rails
- Extremely heat-insulating, multi-layered insulation glazing, 80% light transmission and 62% energy transmission
- Self-cleaning due to 5° inclined partial glazing on a 3° sloping upstand on the eaves side
